What is the function of Meeuwenveen BV?

Since 1992 Meeuwenveen BV facilitates group work in the field of awareness and inner development, in the most comprehensive sense of the words, by offering suitable accommodation to trainers, coaches, teachers and their students. For this Meeuwenveen BV must have access to those contact details that make it possible to legally validate invoices and conclude agreements.

Meeuwenveen BV only stores contact details as long as they are needed for the above purpose and will always:

- asks permission to use them if this permission is required.
- will not pass them on to third parties unless required by law.
- ensure that they are not used by third parties for purposes other than those agreed upon.
- secure contact details, preventing unwanted access to them, even from those parties it is necessary to share them with. All our processor agreements (third party contracts) are specifically formulated for this purpose. For example: ICT Service Provider, website hosting, accountant, etc.
- immediately warn the parties involved in suspected abuse.
- adjust, remove or provide access to any contact details if requested by the person concerned.
